INTERNSHIPS

ICT Academy | September 2023 - December 2023

- I gained hands-on experience implementing OOPS principles and utilizing JavaScript for DOM manipulation. This opportunity allowed me to deepen my understanding of both languages while developing practical skills in full-stack development.

PROJECTS

Blog Website | April 2024 - May 2024

- Created a blog website allowing authenticated users to perform CRUD operations on posts. Integrated Appwrite for backend services, enabling secure user authentication and data management

E-commerce website | February 2024 - April 2024

- Developed an e-commerce website with ReactJS for the frontend and Firebase for the backend, incorporating role-based access control for admin and user functionalities.

Comparitive Analysis of Brain Tumor Detection System | January 2024 - April 2024

- Developed and analyzed brain tumor detection systems, achieving 96% accuracy with Xception, 91% with ResNet, and 89% with CNN models.

Carpool Website | March 2023 - May 2023

- Developed a user-friendly carpool website facilitating ride-sharing and route planning for users.

WORK EXPERIENCE

Arterns Technologies | May 2024 - Present

- Front End Developer: During my job, I built dynamic web applications, added new features, optimized performance, and collaborated on API integrations. I gained hands-on experience with React, Redux, and responsive design, while improving my problem-solving skills.

ICT Academy | September 2023 - December 2023

- Trainee: I gained hands-on experience implementing OOPS principles and utilizing JavaScript for DOM manipulation. This opportunity allowed me to deepen my understanding of both languages while developing practical skills in full-stack development.
